<https://www.linkedin.com/in/sofia-jonsson11/> | <https://dev.to/sofiajonsson>

Full stack web developer with a passion for travel and languages. With experience in Ruby on Rails, JavaScript, and React and a background in business and hospitality, I discovered my passion for code while searching for something to keep my mind stimulated after University. As a hospitality graduate, I have developed a strong skill set pertaining to organization, communication, and thriving under pressure. I enjoy learning new things in a fast paced environment and wish to move forward on this continuous learning path.

TECHNICAL PROJECTS

Pow Tracker- https://github.com/sofiajonsson/front_end_final | <https://youtu.be/ZUXU7ZWpqD4>

A resort and forecast tracking app for avid skiers

- + Built on a Ruby on Rails backend
- + Scraped data using httparty to create custom API
- + Used React to create a responsive snow tracking app that updated "favorites" upon click
- + Incorporated Google's OAuth for login feature

Thrones_tracker- https://github.com/sofiajonsson/thrones_tracker | <https://youtu.be/Rjdsqw375Ms>

A vanilla javascript app to keep track of Game of Thrones characters

- + Built on a Ruby on Rails backend with full MVC and CRUD
- + Used Vanilla JavaScript to create a responsive Single Page Application
- + Made calls to local API through AJAX

Roam - <https://github.com/sofiajonsson/roam> | <https://youtu.be/l6XZZH1GCUQs>

Full Ruby on Rails travel social media site

- + Used Bcrypt to provide users with secure login feature
- + Incorporated nested file features to keep files specific
- + Established custom routes for landing page
- + Created a follow to follower relationship for users to "keep up" with other users depending on relationship
